

The Internet Dating Chat Room Logbook

The Internet Dating Chat Room Logbook

The only way to keep track of all your Internet
dating chat room details and contacts!

The Internet Dating Chat Room Logbook

WELCOME to the Internet Dating Chat Room Logbook.

This logbook has been designed to help you keep track of the details of all the people you meet through chat rooms on the Internet. The chat room is a dynamic environment and even a person with the best memory will struggle to remember the names, details, and contact information of the dozens of people you've chatted to in one session (often at the same time!). This logbook will help you keep your sanity and helps you avoid losing contact details and dates! It is a companion to the Internet Dating Site Logbook.

The logbook is in a simple format - there is a dedicated page for each chat room you visit. For each chat room:

1. Take a new "first" page of the logbook
2. Fill in the URL or name of the chat site and name of the chat room at the top of the page
3. Note down the handle you are using in this room, your login name and password for the site, and the date you joined.

When you begin to chat to someone that you think is interesting or likeable, you then begin to fill in the tables of the logbook. Don't leave it until after your chat, it's likely you'll forget! There is a separate table dedicated to each person you chat to (there are 2 of these per page of the logbook). Information in each of the tables needs to be filled in when:

1. You first start chatting with the person
2. You have an idea of their favourite chat topics and times
3. You obtain contact details such as email, ICQ, phone numbers and addresses
4. You have that all important meeting/date

When you've chatted to more than two people of interest (which will happen very quickly!) use the "follower" logbook page for all subsequent people you meet in that chat room.

Use this logbook well and have fun!
